Area. Hours After the storm we went outside
and couldn't believe what we ~~where~~ were looking
at. My mother House ~~and~~ Her neighbors really
didn't look so bad except for they got maybe
A foot or two of water. So as we went out
Side the ~~er~~ Neighborhood down other
Streets all you could do was thank
the lord you was still living. It
took 2 days before I could get to
my House and oh lord when I finally
got down the street (old spanish trail) it got
worse. I knew when I got to my House
it was going to be bad. I had to park at
the end of MARCIE LN to get to my House it
must have been about 10 trees blocking the
street it seemed like you were walking
through the woods. I finally got to my House
And saw a tree on the back of the House
a whole bunch of shingles everywhere. I got inside
I could have died it looked like a tornado →

got in the inside of the house.
The mudd line was about
5 1/2 feet High. Everything I worked
so hard for was everywhere.
My ceiling in the Den had
caved in. Water and mudd
was everywhere I had a whole
in the Hallway also. I had just
fixed my Porch in the Back in
May and it looked like a twister
had gotten too it. This was
just something you would only
see on the movies. Then being
out of Power for weeks didn't
help. I lost everything
in my House I couldn't
save anything. So now I have
to ~~deal~~ deal with the fact
that I have insurance but
not flood so you have to deal
with your insurance And Hope
fema will Help you.

Thanks for wanting to
know how we feel about
Katrina.
